DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- Species I, Figure 1 drawn to a first embodiment;
- Species II, Figure 2 drawn to a second embodiment;
- Species III, Figure 3 drawn to a third embodiment;
- Species IV, Figure 4 drawn to a fourth embodiment;
- Species V, Figure 5 drawn to a fifth embodiment;
- Species VI, Figure 6 drawn to a sixth embodiment;
- Species VII, Figure 7 drawn to a seventh embodiment;
- Species VIII, Figure 8 drawn to an eighth embodiment;
- Species IX, Figure 9 drawn to a ninth embodiment;
- Species X, Figure 10 drawn to a tenth embodiment;
- Species XI, Figures 11-16 drawn to an eleventh embodiment;
- Species XII, Figure 17 drawn to a twelfth embodiment;
- Species XIII, Figure 18 drawn to a thirteenth embodiment;
- Species XIV, Figure 19 drawn to a fourteenth embodiment;
- Species XV, Figure 20 drawn to a fifteenth embodiment;
- Species XVI, Figure 21 drawn to a sixteenth embodiment;
- Species XVII, Figure 22 drawn to a seventeenth embodiment;

Species XVIII, Figures 23-24 drawn to an eighteenth embodiment;
Species XIV, Figures 25-26 drawn to a nineteenth embodiment;
Species XX, Figures 27 drawn to a twentieth embodiment;
Species XXI, Figures 28-30 drawn to a twenty-first embodiment;
Species XXII, Figure 31 drawn to a twenty-second embodiment;
Species XXIII, Figures 32-34 drawn to a twenty-third embodiment;
Species XIV, Figure 35 drawn to a twenty-fourth embodiment;
Species XV, Figure 26 drawn to a twenty-fifth embodiment.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).

A telephone call was made to MCGINN INTELLECTUAL PROPERTY LAW GROUP, PLLC on 3/18/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
